## Contents

### Review

145 **A systematic review of the effects of injectable sedative and anesthetic drugs and inhalant anesthetics on intraocular pressure in the dog**
T Pierce-Tomlin, M R Shaughnessy, E H Hofmeister

### Perspective

152 **Intraoperative nociception-antinociception monitors: A review from the veterinary perspective**
P Ruíz-López, J M Domínguez, M d M Granados

### Anaesthesia

#### Research Papers

160 **The effect of midazolam or lidocaine administration prior to etomidate induction of anesthesia on heart rate, arterial pressure, intraocular pressure and serum cortisol concentration in healthy dogs**
S C Keating, A M Sage, T D Ambrisko, A Somrak, M Q Carroll, P M Oba, B Martins, K S Swanson

168 **Pharmacokinetics of S-ketamine and R-ketamine and their active metabolites after racemic ketamine or S-ketamine intravenous administration in dogs sedated with medetomidine**
N Romagnoli, R N Bektas, A P N Kutter, A Barbarossa, P Roncada, S Hartnack, R Bettschart-Wolfensberger

177 **Appraisal of the 'penumbra effect' using lingual pulse oximetry in anaesthetized dogs and cats**
A Mair, J Ferreira, C Ricco, M Nitzan

183 **Determination of acute tolerance and hyperalgesia to remifentanil constant rate infusion in dogs undergoing sevoflurane anaesthesia**
P Ruíz-López, R Navarrete-Calvo, J Morgaz, J M Domínguez, S Quirós-Carmona, P Muñoz-Rascón, R J Gómez-Villamandos, J A Fernández-Sarmiento, M M Granados

191 **Effects of cuff size and position on the agreement between arterial blood pressure measured by Doppler ultrasound and through a dorsal pedal artery catheter in anesthetized cats**
S A Cerejo, F J Teixeira-Neto, N A Garofalo, E L Pimenta, F S Zanuzzo, A V Klein

200 **Pharmacokinetics of midazolam in sevoflurane-anesthetized cats**
U Dholakia, R Seddighi, S K Cox, X Sun, B H Pypendop

210 **Pharmacokinetics and pharmacodynamics of hydromorphone after intravenous and intramuscular administration in horses**
R A Reed, H K Knych, M Barletta, D M Sakai, M M Ruch, C A Smyth, C A Ryan

219 **Plasma dopamine concentrations following dopamine infusion to isoflurane-anesthetized New Zealand White rabbits**
L S Barter, B H Pypendop

#### Short communication

224 **Comparative evaluation of sedative and clinical effects of dexmedetomidine and xylazine in dromedary calves (*Camelus dromedarius*)**
A S Samimi, M M Molaei, O Azari, F Ebrahimpour

### Analgesia

#### Research Papers

229 **Ultrasound-guided erector spinae plane block in canine cadavers: relevant anatomy and injectate distribution**
D A Portela, D Castro, M Romano, A Gallastegui, F Garcia-Pereira, P E Otero

238 **Pregabalin alleviates clinical signs of syringomyelia-related central neuropathic pain in Cavalier King Charles Spaniel dogs: a randomized controlled trial**
M S Thoefner, L T Skovgaard, F J McEvoy, M Berendt, O J Bjerrum

249 **Description of ultrasound-guided quadratus lumborum block technique and evaluation of injectate spread in canine cadavers**
M Garbin, D A Portela, G Bertolizio, F Garcia-Pereira, A Gallastegui, P E Otero

259 **Efficacy of orally administered gabapentin in horses with chronic thoracic limb lameness**
J M Young, M J Schoonover, S L Kembel, J D Taylor, A G Bauck, L L Gilliam

267 **Effect of phentolamine mesylate on regression of lidocaine–epinephrine epidural anaesthesia in sheep**
H Imani Rastabi, J Jamshidian, A Baniadam, F Alipour

274 **Injection techniques for auricular nerve blocks in the rabbit cadaver**
C de Miguel Garcia, D I Radkey, S Hetzel, G Doss

## Letters to the Editor

280 **Positive color flow Doppler test used to confirm sacrococcygeal epidural injection in a dog**
D Castro, D A Portela, P E Otero

281 **Smartphone otoscope: an alternative technique for intubation in rabbits**
F A V Freitag, E Muehlbauer, R Martini, T R Froes, J C M Duque

## AVA abstracts

285 **Abstracts presented at the Association of Veterinary Anaesthetists' meeting on September 11th and 12th, 2019, Ghent, Belgium (listed in alphabetical order by first author's last name)**

## Reviewer Acknowledgements
